NUNO JERÓNIMO

I am a 24-year-old student pursuing a Master's degree in Engineering and Management of Information Systems. With a background in basketball, including playing for Sporting Clube de Braga and coaching the under-12 team, I have developed strong teamwork skills. I also have experience volunteering at the municipal library and contributing to my family's business. I have excellent communication skills, honed through project management and sports involvement. Additionally, I have acquired skills in programming, Arduino, IoT, and UML through my studies and internships. Motivated and driven, I aim to make a positive impact in professional environments.

EDUCATION

Master in engineering and management of information Systems
Set 2017 - Present
University of Minho, Portugal

LANGUAGES

Portuguese (Native)
English (Proficiency)
